

**AMENDMENTS TO THE DRAWINGS**

In response to the Draftsperson's Communication regarding the drawings, the drawings have been amended as follows:

The figure legends have been deleted from drawings 1-8. The text of the figure legends has been introduced into the "Brief Description of the Drawings" in lieu of appearing on the drawings themselves.

Figure 1 has been further amended to remove the shading of boxes showing the promoter.

Figure 2 has been further amended to redraw the culture plates to show clear lines.

Figure 4 has been further amended to remove extraneous boxes from the gels.

Figure 5 has been further amended to increase the size of the font and to present the font in clear lines.

Figure 6 has been further amended to remove the shadowed frame of the picture.

Figure 7 has been further amended to remove the dark shading for vector components and to properly align the labeling.

Figure 8 has been further amended to present the structures and labeling in clear lines with proper font size.

No new matter has been introduced into any figure.
